

# Website Hosting

## THE OFFER

Milano Software has offered you, our new client, a free website with the purchase of Salon, Spa or Medi Software v.7.2. The free website includes the creation of a six-page site and the HTML programming of the site. The price of a website can range from a few hundred dollars to tens of thousands! The value of this offer is approximately \$600.

Once the site is created it needs to be hosted. You need to select a site host. All websites need to be hosted and the fee is usually paid annually or monthly. You also need to confirm that the name of your website is available. The cost to register and own a domain name is approximately \$120/year. You can do this yourself or you can ask your hosting company to do it for you. Milano Software has partnered with a website hosting company and can offer hosting for your site and domain registration.

Option 1: Milano Website Hosting \$40/month

Includes:

- Hosting your website
- Providing a website that lets **you make the changes yourself - whenever you want!**
- WEBinar training on how to make changes to your site
- Web based email access
- Web based administration of your email accounts
- Anti-Spamming control of your incoming and outgoing emails
- Anti-Virus scanning of all outgoing and incoming emails

Option 2: Another Hosting Company Price varies

If you choose to use another website hosting company, simply send us their contact info and we'll upload your six pages to them. Please note that you personally will not be able to manage your website if you use another company. That means that if you need changes, you'll have to ask them to do it for you. A web designer will charge between \$75 and \$95 per hour for changes.

*Tell your Milano Business Development Manager  
which option you would like to choose!*
